FOR IMMEDIATE RELEASE

GAME CENTER GROUP PRESENTS THEIR NEW INDIE GAMES STUDIO “ALIAS GAMES LTD”

Game Center Group is thrilled to announce their new indie game studio, Alias Games LTD. We are especially proud to announce our first title, an online card game, Dimensional BattleCry. In addition to all the collectible card and game-play fun, we are happy to be partnering with Hive.id and their authentication platform that incorporates block-chain tech in a new way.

As a service provider for years we know how important it is to verify who your customers are and account security. Our plan is to utilize Hive.id as a single sign-on for everything; the game, forums, and our online store. By leveraging our expertise in the back-end support, moderation and testing verticals, we are able to keep our cost very low and deliver a first-class gaming experience.

As we develop Dimensional BattleCry, we are also working on a second title, 2 Revelations (2 REV). Head on over to the Alias Games website and check out both exciting titles. Be sure to watch our videos on our Kickstarter.

Game Center Group located outside San Diego, was founded in 2006 and provides customer/community moderations services, testing and localization to the video game vertical.
